

Virtually frictionless Jar takes jarring to a new angle

Impact Selector's High Deviation Roller Bogie® Jar is a radical step forward in mechanical jarring technology and performance, there's nothing else like it.

The High Deviation Roller Bogie® Jar has a global presence and boasts a track record of successful operation up to deviations of 85°. The High Deviation Roller Bogie® Jar has virtually no internal resistance. When run in combination with Impact Selector's Roller Bogie® conveyance system, an ultra low friction system is created that allows maximum acceleration of tool string mass at high deviations.

Features:

- Sized to match tool string Roller Bogie®
- Bi-directional jarring
- Virtually no internal resistance
- Robust reliable design

Benefits:

- Effective extreme deviation mechanical jarring action.
- Assist the operator by improving tool string visibility on surface.
- Clear and effective jarring action reported during fishing operations at 85° deviation.

Applications:

Used in conjunction with Roller Bogies® for any deviated slickline intervention work such as:

- Kickover tools
- Inflatable packers
- Bridge plugs/packers
- Fishing
- Sliding side door manipulation

Specifications					
High Deviation Roller Bogie® Jar Size Max (inches)	*Weight (lbs)	*Length (inches)	Stroke Length (inches)	Service Type	Connection Type
2.275	46	91	30	Sour or Severe Sour Service available Composite rollers available for running in GRE or High Chrome Tubing	Connections available to suit customer specifications
2.600	63	94	30		
3.000	79	95	30		
3.350	110	93	30		
3.600	117	96	30		

*Tool weights and lengths are average values per tool size.

Where Advanced Technology and Responsive Service Come Together to Reduce the Risk

For over 2 decades, Impact Selector has served the upstream oil and gas markets with innovative products and services that enhance formation evaluation and well intervention activities. Impact Selector is committed to the success of our customers by combining operational experience, creative design, state-of-the-art manufacturing, and product testing facilities to provide *Intelligent Conveyance®* products and services worldwide to reduce costs and minimize risk.

Products

Open Hole Wireline

- MFT/MFT HPHT Multiconductor Jar
- MCX/MCX HPHT Multiconductor Jar
- SMART Jar™
- Wireline Stand Off
- Wireline Tool Stand Off
- Roller Bogie Hole Finder
- Bull Nose Roller Hole Finder
- Roller Bogie® Systems
- ImpactPro Prediction Analysis Software

Cased Hole E-Line

- XCS / XCS HPHT Jar
- Xcalibur Jar
- SMART Sens™ Tension Sub
- Low Friction Tubular Jar
- Roller Bogie® Systems
- Perforating Roller Bogie®
- Guide Roller Bogie®
- Orienting Perforating Tool

Cased Hole Slickline

- Blockbuster Jar
- Intensifier Jar
- Impact SL Jar
- Low Friction Tubular Jar
- Xcalibur Jar
- Roller Bogie® Systems
- Guide Roller Bogie®
- High Deviation Roller Bogie® Jar
- Low Loader Roller Bogie® Jar
- Advanced Kickover Tool
- Chemical Jetting Soak Tool
- Double Knuckle Joint
- Flapper Investigation Tool
- Flow Tube Exercising Tool
- Safety Valve Protection Sleeve

Services

Leasing and Rental of Wireline Tools

Consultation Services

- Operation, Customization, Maintenance and Repair

Research and Development

- Fast Track New Tool Development
- Turn-Key Engineering Design, Prototype Testing and Manufacturing
