

## Low friction design ensures the tool remains reliable in the harshest conditions

Impact Selector's Low Friction Tubular Jar for e-line wireline operations delivers bidirectional impacts through wireline manipulation. Utilizing a low friction coating to ensure peak performance, the low coefficient of friction ensures the tool will remain reliable in the harshest conditions.

### Features/Benefits:

- Intake and exhaust slots designed to maximize velocity for superior jarring force.
- Can be used in wells with high temperatures and pressures without using seals, bearings, or races.
- Dual fishneck design is used for added precautions.
- Accommodates various e-line connections.

Specifications	
Diameter	2.75"
Length, (Closed / Open)	39" / 59"
Approximate Weight	45 lb
Stroke	20"

## Where Advanced Technology and Responsive Service Come Together to Reduce the Risk

For over 2 decades, Impact Selector has served the upstream oil and gas markets with innovative products and services that enhance formation evaluation and well intervention activities. Impact Selector is committed to the success of our customers by combining operational experience, creative design, state-of-the-art manufacturing, and product testing facilities to provide *Intelligent Conveyance®* products and services worldwide to reduce costs and minimize risk.

### Products

#### Open Hole Wireline

- MFT/MFT HPHT Multiconductor Jar
- MCX/MCX HPHT Multiconductor Jar
- SMART Jar™
- Wireline Stand Off
- Wireline Tool Stand Off
- Roller Bogie Hole Finder
- Bull Nose Roller Hole Finder
- Roller Bogie® Systems
- ImpactPro Prediction Analysis Software

#### Cased Hole E-Line

- XCS / XCS HPHT Jar
- Xcalibur Jar
- SMART Sens™ Tension Sub
- Low Friction Tubular Jar
- Roller Bogie® Systems
- Perforating Roller Bogie®
- Guide Roller Bogie®
- Orienting Perforating Tool

#### Cased Hole Slickline

- Blockbuster Jar
- Intensifier Jar
- Impact SL Jar
- Low Friction Tubular Jar
- Xcalibur Jar
- Roller Bogie® Systems
- Guide Roller Bogie®
- High Deviation Roller Bogie® Jar
- Low Loader Roller Bogie® Jar
- Advanced Kickover Tool
- Chemical Jetting Soak Tool
- Double Knuckle Joint
- Flapper Investigation Tool
- Flow Tube Exercising Tool
- Safety Valve Protection Sleeve

### Services

#### Leasing and Rental of Wireline Tools

##### Consultation Services

- Operation, Customization, Maintenance and Repair

##### Research and Development

- Fast Track New Tool Development
- Turn-Key Engineering Design, Prototype Testing and Manufacturing
- Mechanical and Electrical Engineering
- Modeling Software

##### Support

##### 24 hours a day/7 days a week

- Wellsite Operations
- Training
- Maintenance
- Technical
