

Impact Selector's Safety Valve Protection Sleeve (SVPS) protects seal bore surfaces within Safety Valves during well intervention. The SVPS also prevents the Flapper from closing on the wireline. Our SVPS have been deployed globally for over a decade. With over 200 sleeve designs available for three sleeve types, Impact Selector can provide a SVPS to suit any application or Safety Valve.

### Features:

- Large ID
- Manufactured to suit customer requirements

### Benefits:

- Protects seal bores from intervention wear
- Simple deployment and retrieval

### Collet Protection Sleeve

- Additional advantage of snap in Collet Fingers while providing maximum through bore.

### Lock-in Sleeve

- Designed to locate in position with a NOGO.
- Incorporates positive engagement Collet Fingers to hold securely in position.

### Drop Off Sleeve

- Conveyed by incorporating a specific running tool in the intervention tool string.
- Allows Protection Sleeve to be located and retrieved during a single run.
- Saves time, reduces risk by eliminating additional trips in hole.
- Can run on E-line applications.

## Where Advanced Technology and Responsive Service Come Together to Reduce the Risk

For over 2 decades, Impact Selector has served the upstream oil and gas markets with innovative products and services that enhance formation evaluation and well intervention activities. Impact Selector is committed to the success of our customers by combining operational experience, creative design, state-of-the-art manufacturing, and product testing facilities to provide *Intelligent Conveyance®* products and services worldwide to reduce costs and minimize risk.

### Products

#### Open Hole Wireline

- MFT/MFT HPHT Multiconductor Jar
- MCX/MCX HPHT Multiconductor Jar
- SMART Jar™
- Wireline Stand Off
- Wireline Tool Stand Off
- Roller Bogie Hole Finder
- Bull Nose Roller Hole Finder
- Roller Bogie® Systems
- ImpactPro Prediction Analysis Software

#### Cased Hole E-Line

- XCS / XCS HPHT Jar
- Xcalibur Jar
- SMART Sens™ Tension Sub
- Low Friction Tubular Jar
- Roller Bogie® Systems
- Perforating Roller Bogie®
- Guide Roller Bogie®
- Orienting Perforating Tool

#### Cased Hole Slickline

- Blockbuster Jar
- Intensifier Jar
- Impact SL Jar
- Low Friction Tubular Jar
- Xcalibur Jar
- Roller Bogie® Systems
- Guide Roller Bogie®
- High Deviation Roller Bogie® Jar
- Low Loader Roller Bogie® Jar
- Advanced Kickover Tool
- Chemical Jetting Soak Tool
- Double Knuckle Joint
- Flapper Investigation Tool
- Flow Tube Exercising Tool
- Safety Valve Protection Sleeve

### Services

#### Leasing and Rental of Wireline Tools

##### Consultation Services

- Operation, Customization, Maintenance and Repair

##### Research and Development

- Fast Track New Tool Development
- Turn-Key Engineering Design, Prototype Testing and Manufacturing
- Mechanical and Electrical Engineering
- Modeling Software

##### Support

##### 24 hours a day/7 days a week

- Wellsite Operations
- Training
- Maintenance
- Technical
