

Protect against time-consuming and expensive stuck tool strings and fishing jobs in cased hole electrical line operations

Impact Selector's Xcalibur E-Line wireline Jar is ideal for logging, perforating, pipe recovery, and P&A under adverse conditions.

Features/Benefits:

- Fully adjustable on the surface, while in the tool string.
- All-mechanical design is unaffected by pressure or temperature.
- Accommodates various e-line connections.
- Maintenance can be performed in the field, within a confined space, by a certified technician.
- Short, compact design. Keeps rig up's as short as possible.
- Instant and unlimited activations, with no waiting period, once the pre-set is reached.

Specifications

Diameter	.875"	1.562"	2.75"
Max Temp	400°F	400°F	400°F
Max Pressure	25,000 psi	25,000 psi	25,000 psi
Length (Closed / Open)	49.5" / 55.667"	75.75" / 81.9375"	59.47" / 65.87"
Approximate Weight	6 lb	30 lb	65 lb
Field Adjustability	100—1,000 lb	300—1,400 lb	400—1,700 lb
Total Stroke	6.167"	6.188"	6.4"
Power Stroke	5"	4.875"	4.5"

Where Advanced Technology and Responsive Service Come Together to Reduce the Risk

For over 2 decades, Impact Selector has served the upstream oil and gas markets with innovative products and services that enhance formation evaluation and well intervention activities. Impact Selector is committed to the success of our customers by combining operational experience, creative design, state-of-the-art manufacturing, and product testing facilities to provide *Intelligent Conveyance®* products and services worldwide to reduce costs and minimize risk.

Products

Open Hole Wireline

- MFT/MFT HPHT Multiconductor Jar
- MCX/MCX HPHT Multiconductor Jar
- SMART Jar™
- Wireline Stand Off
- Wireline Tool Stand Off
- Roller Bogie Hole Finder
- Bull Nose Roller Hole Finder
- Roller Bogie® Systems
- ImpactPro Prediction Analysis Software

Cased Hole E-Line

- XCS / XCS HPHT Jar
- Xcalibur Jar
- SMART Sens™ Tension Sub
- Low Friction Tubular Jar
- Roller Bogie® Systems
- Perforating Roller Bogie®
- Guide Roller Bogie®
- Orienting Perforating Tool

Cased Hole Slickline

- Blockbuster Jar
- Intensifier Jar
- Impact SL Jar
- Low Friction Tubular Jar
- Xcalibur Jar
- Roller Bogie® Systems
- Guide Roller Bogie®
- High Deviation Roller Bogie® Jar
- Low Loader Roller Bogie® Jar
- Advanced Kickover Tool
- Chemical Jetting Soak Tool
- Double Knuckle Joint
- Flapper Investigation Tool
- Flow Tube Exercising Tool
- Safety Valve Protection Sleeve

Services

Leasing and Rental of Wireline Tools

Consultation Services

- Operation, Customization, Maintenance and Repair

Research and Development

- Fast Track New Tool Development
- Turn-Key Engineering Design, Prototype Testing and Manufacturing
- Mechanical and Electrical Engineering
- Modeling Software

Support

24 hours a day/7 days a week

- Wellsite Operations
- Training
- Maintenance
- Technical
